Subject: Unified Practical Journals

As you are well informed that University has rolled out the practical Journals for all the practical and clinical subjects since Academic Year 2019-2020. The process was adopted to unified, standardise, and monitor the Quality practical education across all health science courses. We have made it clear during previous communications that only university prescribed Journals are to be used by students and certificates with hologram to be used for external practical examinations. Certificates of students have to be submitted at the end of the session, if it is not submitted by college the students will not be able to appear in the theory examination and this will be the sole responsibility of colleges.

University has decided to implement the Practical Journals strictly from Academic session 2020-2021 Thus, all the affiliated institutes are instructed to compulsory implement and use MPMSU Journals and inform us accordingly. Action will be taken against institutes and faculty not adhering to the specified guidelines.
